PRE-REGISTRATION INFORMATION**

Dear Parents,

We encourage you to review this handbook, along with A Guide to Career Clusters and Pathways, with your son/daughter concerning the requirements and course offerings, and then assist your child in developing a schedule for next year.

Students who plan to enroll in the Gadsden Independent School District should check this handbook carefully before completing the pre-registration work sheet. This handbook contains information concerning registration and graduation requirements, and A Guide to Career Clusters and Pathways contains descriptions of each course taught in the high schools. Information regarding college requirements, college tests, financial aid, scholarships, and career objective plans may be acquired from your counselor.

Students should be very careful in their selection of courses. Choice of courses at this time will determine the master schedule to be devised for the next school year. Requests will determine what courses will be offered and the number of class sections for each course. Careful course selection helps the student obtain the courses wanted.

Parents, you are encouraged to use this pre-registration handbook and the Guide to discuss and assist your child in the selection of courses. Your involvement in this process of course selection will greatly aid your child in making appropriate choices for their academic program toward graduation. Please feel free to call the school if you desire further information.

Sincerely,

Ronald Haugen,
Superintendent

CLASSIFICATION OF STUDENTS

POLICIES FOR TRANSFERRING CREDITS FROM FOREIGN COUNTRIES

- 1) Students transferring from Mexico (or countries with similar grading systems) should present their transcript to the counselors to be evaluated as follows:
 - a. Only Grade 3 of *secundaria* (U.S. Grade 9) should be reviewed along with grades 1, 2, & 3 of *preparatoria* (U.S. Grades 10,11,12). Only those courses for which the student has earned an A, B, C, or D (A = 95, B = 85, C = 75, D = 65, unless percentage grades are on transcript) will be counted for credit. A student may only transfer up to eight (8) credits **per year**, some of which may be electives. A student may only transfer up to a total of **15 credits**.
 - b. The students may transfer half-credits if earned under a semester system.
 - c. Grade conversion: Numerical grades based on a scale of 10 are converted into percentages / letter grades as follows:

$$10 = 100 = A+$$

$$9 = 90 = A$$

$$8 = 80 = B$$

$$7 = 70 = C$$

$$6 = 60 = D$$

$$0-5 = 50 = F \quad \text{(No Credit Allowed)}$$

(Numerical grades with decimals **are not** to be rounded off.
A 7.9 is still 79, which equals a C)

- 2) Student enrolling with transcripts from countries with dissimilar systems will be evaluated on an individual basis.
- 3) **Foreign exchange students may only be classified as 11th grade students and are not eligible to graduate from Gadsden Independent School District.**
- 4) **Persons who have successfully completed the equivalent of U.S. high school in their country of origin are NOT eligible to matriculate in high school in New Mexico.**

CLASSIFICATION REQUIREMENTS (determined in June of each year)

- To be classified as a sophomore a minimum of 6 credits are needed.
- To be classified as a junior a minimum of 12 credits are needed.
- To be classified as a senior a minimum of 20 credits are needed.
- Transfer students entering with 19 credits are reclassified in January as seniors.
- Seniors need 28 credits to graduate. ** (See page 6)

CREDIT FOR HIGH SCHOOL COURSES AT THE MIDDLE SCHOOL

At the present time, Gadsden ISD offers five courses that students can take at the Middle School level that will earn them High School graduation credit. Those courses are:

- English 1
- Algebra 1
- PREPS
- General Computer Applications
- Spanish 1 & 2 equals 1 Foreign Language Credit

Qualifying Steps for Placement into Various Courses

To be eligible for placement into English 1 and Algebra 1, students must meet the following eligibility criteria:

- Step 1: Students qualify automatically if their performance on the New Mexico Standards-based Assessment (NMSBA) receives a rating of Advanced in Language Arts and/or Mathematics.
- Step 2: Students whose performance on the New Mexico Standards-based Assessment (NMSBA) receives a rating of proficient in Language Arts and/or Mathematics may still be considered. If the student is referred to the Student Assistance Team (SAT) for placement, the committee will consider the student's grades and teacher recommendation and any other previous standardized tests. These students will qualify on the recommendation of the SAT after considering this information. If the student still does not qualify, the end of the book test in Pre-Algebra or a Language Arts Department test may be added to the student's profile and the SAT may reconsider approval of the placement.

Credit for English 1 and/or Algebra 1 will be awarded as follows:

1. Students earning 80-100% in English 1 and/or Algebra 1 as 8th-grade students are eligible for Honors English 2 and/or Honors Geometry.
2. Students earning 60-79% in English 1 and/or Algebra 1 as 8th-grade students will be placed in English 2 and/or Geometry.

In order to receive High School elective credit for General Computer Applications and Spanish for Native Speakers 3, students must have passed with a 60% or better for both semesters.

STUDENTS MAY NOT TAKE THESE COURSES AGAIN AT THE HIGH SCHOOL IF THEY HAVE ALREADY PASSED THEM AT THE MIDDLE SCHOOL LEVEL (As per 6.30.2 NMAC- "A student cannot take the same course twice for credit.")

Notice of/Credit for these courses will be transmitted by an official letter/transcript from the middle school and sent to the Office of the Associate Superintendent for Instruction, and the corresponding High School Principal and Counseling Department Chair.

POST SECONDARY PREPARATORY COURSES

Taking a college entrance exam and having a high grade point average will not guarantee student admission into a university. The student will also need to complete successfully a series of high school courses, which the universities believe will prepare them for university studies. In order to meet these requirements, it is **RECOMMENDED** that the student complete the following courses:

English	Four (4) Credits	English 1, 2, 3, and 4
Science	Four (4) Credits	Subjects such as Integrated Science, Biology, Chemistry, Physics, Environmental Science, and Human Anatomy/Physiology
Mathematics	Four (4) Credits	Algebra I, Algebra II, and Geometry; Trigonometry and Calculus are highly recommended for students going into engineering
Social Sciences	Three (3) Credits	Principles of Democracy, United States History, and World History
Foreign Language	Three (3) Credits	A minimum of two years of the same foreign language will fulfill this requirement
Fine Arts	One (1) Credit	Courses from the following fields: art, music, theater arts
Computer Technology	One (1) Credit	Course from Computer and Information Technology

*College entrance requirements vary. See your counselor for the college in which you are interested and/or secure a catalog directly for the college. Materials are available in the Counseling Center to help students research information and decide on a university. (Note: **Students may be denied admission to the university of their choice if they have not taken the recommended high school courses that meet their admissions policy. IT IS THE RESPONSIBILITY OF THE STUDENT AND HIS/HER PARENTS TO ENSURE THAT RECOMMENDED COURSES ARE COMPLETED.**)*

COURSE SELECTION

GUIDELINES

Courses will only be offered if requested by a minimum of 15 students. The Central Management Team (CMT) must approve exceptions.

- 1) Students will enroll in eight classes for the year. Seniors' schedules will be modified to meet their specific needs.
- 2) Students planning to complete graduation requirements in December (end of 1st semester) should contact their counselor by the end of the first grading period.
- 3) Schedule changes are only granted for the following reasons:
 - a) **The student is misplaced in a class and does not have the necessary skills or prerequisites.**
 - b) **The student has taken the course before and successfully completed it.**
 - c) **A senior needs a required course for graduation.**
 - d) **The principal will be the final authority in approving all schedule changes.**
- 4) In order to enroll in a course, students must have been enrolled in and successfully completed the prerequisites for that course in the previous semesters.
- 5) Students will be enrolled in required courses appropriate to their grade classification and ability.
- 6) Students not present the first day of school will forfeit their class choices during pre-registration. If classes are a forfeit, students may select classes from those that still remain open.
- 7) The absentee policy starts the **first** day of each semester. Students absent **10** consecutive days from the beginning of the school year will be dropped as "no-shows." Parents must re-enroll students who have been dropped because of 10 consecutive days of absence. Previous selection of classes is forfeited; students may select classes that still remain open.
- 8) No class fees will be refunded after student has been enrolled in a course 10 or more days.
- 9) Students who enroll in Gadsden Secondary Schools after the first six (6) weeks may **not** receive credit for that semester, pending appeal to the principal/designee. The only exception is a student transferring from another school in which they were enrolled immediately prior to registration at Gadsden Secondary Schools.

GRADES AND GPA

GRADING SYSTEM FOR SENIOR HIGH SCHOOL (A7/1/85; R8/27/96)

- 1) The teacher will assess all students and record all grades numerically. No grades will be represented by dots, dashes, stars or other non-numerical symbols.
- 2) Grades are determined on the basis of total possible points for grading period; curving of grades is not permitted.
- 3) Each session will have two terms and each term grade will be calculated numerically by averaging all grades.
- 4) A percentage grade will be derived from the numerical grade and will be assigned a letter equivalent based upon the following scale:

90-100	A
80-89	B
70-79	C
60-69	D
50-59	F
- 5) The session average for all **year-long** or **A/B Block Courses** will be determined by the following percentages:

40%	- Average of 1 st and 2 nd 9 weeks grades
10%	- Fall semester Exam
40%	- Average of 3 rd and 4 th 9 weeks grades
10%	- Spring Semester Exam
- 6) The session average for all **4 X 4 Block Courses** will be determined by the following percentages:

40%	- 1 st 9 Weeks
40%	- 2 nd 9 Weeks
20%	- Final Exam
- 7) Student progress will be assessed frequently and reported to the student. It is required that, at a minimum, students' progress will be assessed one time each week and recorded in the grade book.
- 8) The weight of various assignments during the **semester** will be left to the discretion of the teacher. However, the weighing of assignments must be logical, fair, and described in the classroom procedures so the students are aware of the system being used.
- 9) Grades will reflect academic performance skill levels. Grades will absolutely not be used as disciplinary censure.

10) Grade point calculations will be based on the following scale:

Graduating Classes 2007-2008:	A = 4.0 B = 3.0 C = 2.0 D = 1.0 F = 0	Graduating Classes from 2009 on:	90-100 equivalent to A 80-89 equivalent to B 70-79 equivalent to C 60-69 equivalent to D 50-59 equivalent to F
----------------------------------	---	-------------------------------------	--

11) Honors courses/AP courses will be awarded as follows:

Graduating Classes 2007-2008:	A = 5.0 B = 4.0 C = 3.0 D = 1.0 F = 0	Graduating Classes from 2009 on:	90-100 + 5 points 90-99 + 5 points 80-89 + 5 points 60-69 No extra points 50-59 No extra points
----------------------------------	---	-------------------------------------	---

GPA will be determined by the total grade points earned. Grade points will be figured based upon the credited courses.

CLASS RANKING REQUIREMENTS

In order to qualify for ranking in the top 10% of the graduating senior class, a student must complete their entire senior year (9 months) in the Gadsden Independent School District. Introduction to Career Pathways

This guidebook is designed to help you select courses during your high school years that will support your future education and employment plans. The majority of employment opportunities that provide people with a "living wage" require specific skills and education beyond high school. Determining which direction to go is not always easy, and at the end of your 12th grade year you will have lots of options. A way to look at this process is to imagine a highway system. Presently, the road has been pre-planned for you and you have had very little choice in what route you take to complete this first leg of the journey. You begin school in kindergarten and then you complete at 12th grade. After graduation, the road branches off in many directions. Consider them on-ramps to a new horizon of opportunity. There is a road leading to a 4-year university, another to the military or to a Community College. Once you leave high school, there are plenty of options, and you may find that you get on and off the "educational on-ramp" at many times in your life.

Another choice that you may make many times in your life is deciding what you want to do with your life in terms of your career. The world of work is divided into sixteen broad categories called clusters, such as Education and Training or Human Services. With each cluster there are pathways or different categories that employ people in different occupations. For example, in Education and Training there are three pathways: Administration and Administrative Support, Professional Support Services, and Teaching/Training. Within the Teaching/Training pathway there are careers such as elementary teachers, coaches, and child care workers. This guide contains information about all sixteen clusters and which courses are offered at one or more of the high schools that you can take to start working towards your future occupation. Some even offer the opportunity to earn credentials while you are still in high school that can help you get a job when you graduate. Other clusters have pathways that connect you to the Dona Ana Branch Community College while you are still in high school and allow you to get an early start on the advanced education you will need for your career choice.

To help you decide on your "pathway" there are several tools that are available to you. First of all, your I-CAT advisor will guide you through the process of exploring and selecting a career cluster and pathway, in addition to helping you with Pre-Registration. Another tool is the *Career Cruising*[™] online program, available at school or at home: www.careercruising.com. *Career Cruising*[™] provides a Career Matchmaker, a section for exploring careers, another for exploring colleges and universities, and a Career Portfolio Tool, which allows you to store your interest inventory, build a resume, and document all your school, volunteer, and extracurricular activities. Finally, there is the One-Stop Career Center, which has plenty of information about different career options; what type of education, degree and/or certification is required; salaries; and future forecasts for employment.

This book is organized according to the sixteen clusters described on the next two pages, with course descriptions for each cluster. If you want to find a course quickly, check the back of the book for the index. It will tell you where you can find a specific course. Take your time and make good decisions when you choose your courses. You can always change your pathway or cluster. Part of being a high school student is about exploring options. The intention of this book is to give you some ideas to think about as you continue your journey towards a productive and fulfilling life.

The Sixteen Career Clusters

Design Your Own Pathway!

In the preceding pages you explored pathways that have been fully developed—they have a direct path between the courses you take, nationally recognized certificates, and opportunities for post-secondary education even when you are still in high school. The next pages are devoted to pathways that exist in all of the sixteen career clusters, but the road that leads to these pathways is still under construction.

If your career objective is found in one of the pathways in this section, you will get the opportunity to “build your own pathway” to achieve your dream. On the next page you will find a template to design your own pathway. You will need some “tools” to help you along the way and some information to help make decisions.

- 🔊 *Don't plan alone.* Enlist your I-CAT advisor, career counselor, parent, a teacher, principal or academic counselor to help you decide what courses will help you get to your goal and to assist you in creating your own pathway.
- 🔊 *Log on to Career Cruising.* Take the inventory; connect to the profiles of successful people who chose the same career you're interested in. Career Cruising will give you information on how to prepare, what post-secondary schools offer degrees in your fields, and other useful information you can use to help you design your pathway.
- 🔊 *Explore all your options.* Your career and academic counselors can provide you with information on what you can take as a junior and/or senior at Doña Ana Community College, even though you are not in one of the other pathways. Additionally, you may be able to enroll at New Mexico State University or University of Texas at El Paso to take classes, if you qualify and meet other criteria.

Even if you do want to journey down one of the pathways in the preceding pages, spend some time to explore the careers in the following clusters. You may find something that sparks your interest.

DISTRITO ESCOLAR INDEPENDIENTE DE GADSDEN INFORMACIÓN DE PREMATICULACIÓN

Estimados Padres:

Este manual trata sobre los requisitos y los cursos disponibles para su hijo/a. Los animamos a examinarlo, además de la Guía para los Grupos y Caminos de Carreras (“A Guide to Career Clusters and Pathways”), con su hijo/a para que juntos desarrollen un horario para el próximo año escolar.

Todo estudiante matriculado en nuestro distrito deberá examinar bien este manual antes de llenar la hoja de prematriculación. El manual contiene información sobre la matriculación y los requisitos de graduación, y la guía contiene descripciones de cada curso en las preparatorias. Los consejeros podrán proporcionarles información sobre requisitos para ingresar a la universidad, exámenes universitarios, ayuda financiera, becas y planes para una carrera.

Los estudiantes deben poner mucha atención al seleccionar sus cursos. Los cursos que escojan determinarán el horario general para el año entrante. Las selecciones determinarán cuales cursos se ofrecerán, así como la cantidad de secciones para cada curso. Una selección cuidadosa le ayudará al estudiante a obtener los cursos que solicite.

Animamos a Uds. los padres a usar el manual y la guía para hablar sobre los cursos y ayudarlo a su hijo/a a seleccionarlos. Su participación en esta tarea le será de mucho beneficio a su hijo/a al diseñar su programa académico para graduarse. Si desea más información, comuníquese con su escuela.

Sinceramente,

Ronald Haugen,
Superintendente

CRÉDITO PARA CLASES DE PREPARATORIA EN LA ESCUELA SECUNDARIA

Actualmente, el distrito de Gadsden ofrece cinco cursos que estudiantes pueden tomar en el nivel de la escuela secundaria que pueden servir para crédito para graduarse de la preparatoria. Estos cursos son:

- Inglés 1
- Algebra 1
- PREPS
- Aplicaciones generales de computadoras
- Español para hispanohablantes 1 & 2 equivalen a un (1) crédito en idioma extranjero

Los pasos para calificarse en varios cursos

Para ser elegible a matricularse en Inglés 1 y Algebra 1, los estudiantes tienen que satisfacer los siguientes criterios:

- Paso 1: Estudiantes calificarán automáticamente si cumplen un nivel de Avanzado en la prueba New Mexico Standards-based Assessment (NMSBA) en artes del lenguaje y/o matemáticas.
- Paso 2: Se puede tomar en cuenta a los estudiantes que cumplen el nivel de Proficiente en artes del lenguaje y/o matemáticas en la prueba New Mexico Standards-based Assessment (NMSBA). Si el estudiante es referido al SAT, el comité considerará las calificaciones del estudiante y la recomendación del maestro y otros resultados de pruebas. Estos estudiantes calificarán con la recomendación del comité después de considerar esta información: Si el estudiante aún no califica, la prueba al final del libro de Pre-Algebra o la prueba del Departamento de Artes del Lenguaje puede ser agregado al perfil del estudiante y el SAT puede considerar de nuevo la aprobación del estudiante.

Crédito para Inglés 1 y/o Algebra 1 será determinado así:

3. Los estudiantes que obtengan 80-100% en Inglés 1 y/o Algebra 1 como estudiantes de grado 8, pueden matricularse en Inglés 2 Honor y/o Geometría Honor.
4. Los estudiantes obteniendo 60-79% en Inglés 1 y/o Algebra 1 como estudiantes de grado 8 se matricularán en Inglés 2 y/o Geometría, no en los cursos de honor.

Para poder recibir crédito electivo para preparatoria para los cursos secundarios de Aplicaciones Generales de Computadores y Español para hispanohablantes 3, los estudiantes tienen que haber pasado ambos semestres con 60% o más.

EL ESTUDIANTE NO PUEDE VOLVER A TOMAR NINGUNO DE ESTOS CURSOS EN LA PREPARATORIA SI YA LOS HA PASADO AL NIVEL DE LA SECUNDARIA (según la ley 6.30.2 NMAC—"Un estudiante no puede tomar el mismo curso 2 veces para crédito.")

Se transmitirá notificación/crédito para estos cursos por carta/expediente académico oficial desde la escuela secundaria a la Oficina del Sub-Superintendente para Instrucción y al director y al consejero principal de la escuela preparatoria.

Los requisitos para entrar a colegio varían. Visita a su consejero para información sobre el colegio que le interesa y/o obtenga un folleto informativo directamente del colegio. Estos materiales se consiguen en el Centro de Consejería para ayudar a estudiantes a investigar información y escoger a una universidad. **(Nota: Se le puede negar admisión a una universidad si el estudiante no ha tomado los cursos preparatorios que satisfagan las reglas de admisión. ES LA RESPONSABILIDAD DEL ESTUDIANTE Y SUS PADRES ASEGURAR QUE EL ESTUDIANTE HAYA COMPLETADO LOS CURSOS RECOMENDADOS.)**

 - b) **El estudiante ha tomado el curso antes y lo completó con éxito.**
 - c) **Un estudiante de grado 12 necesita un curso requerido para graduar.**
 - d) **El director tiene la autoridad final en aprobar cambios de cursos.**
- 13) Para matricularse en un curso, los estudiantes tienen que haber estado matriculado en y completado con éxito los pre-requisitos para este curso en los semestres anteriores.

Estudiantes que faltan a la escuela **10** días consecutivos desde el comienzo del año escolar se quitarán de la lista como estudiantes “sin aparecer.” Los estudiantes tienen que ser matriculados otra vez por sus padres después de ser quitados de la lista porque tienen 10 días consecutivos de ausencia. Se pierden las clases escogidas anteriormente. Estos estudiantes pueden escoger clases aún disponibles.
- 17) Los estudiantes que se matriculen en las escuelas preparatorias de Gadsden después de las primeras seis (6) semanas **no** recibirán crédito para el semestre sin apelación al director/representante. La única excepción es un estudiante que transfiere de otra escuela en que estuvo matriculado inmediatamente antes de la matriculación en las escuelas preparatorias de Gadsden.

CALIFICACIONES Y PUNTO DE PROMEDIO (GPA)

EL SISTEMA DE CALIFICACIONES PARA LA ESCUELA PREPARATORIA (A7/1/85; R8/27/96)

- 5) El maestro evaluará a todos los estudiantes y registrará sus calificaciones numéricamente. Las calificaciones no serán representadas con puntos, guiones, estrellas, u otros símbolos que no sean numéricos.
- 6) Las calificaciones serán determinadas en base a todos los puntos posibles para el período de calificaciones; no se permite encorvar las calificaciones.
- 7) Cada sesión tendrá dos términos y cada calificación del término será calculada numéricamente incluyendo todas las calificaciones.
- 8) Una calificación porcentaje será derivada de la calificación numérica y será asignada una letra equivalente basada en la escala siguiente:

90-100	A
80-89	B
70-79	C
60-69	D
59 o menos	F
- 9) El promedio de la sesión para todos los cursos de **4 X 4 "Block"** será determinado por los siguientes porcentajes:
 - 40% - 1^{er} 9 semanas
 - 40% - 2^{do} 9 semanas
 - 20% - el examen final
- 10) El promedio de la sesión para todos los cursos de **AB "Block"** será determinado por los siguientes porcentajes:
 - 40% - el promedio de las calificaciones de los 1er y 2do 9 semanas
 - 10% - el examen del semestre de otoño
 - 40% - el promedio de las calificaciones de los 3er y 4to semanas
 - 10% - el examen del semestre de primavera
- 11) El progreso será evaluado con frecuencia y reportado al estudiante. Es requerido que, por lo menos, el progreso de los estudiantes sea evaluado una vez por semana y registrado en el libro de calificaciones.
- 12) El peso de varias asignaciones durante el término será determinado por el maestro. Sin embargo, el peso de asignaciones tiene que ser lógico, justo, y descrito en las reglas de conducta de la clase para que los estudiantes conozcan el sistema que se usa.
- 13) Las calificaciones reflejarán los niveles de cumplimiento académico. Las calificaciones no reflejarán el comportamiento del estudiante.

14) Se usa la escala de abajo para calcular los puntos de calificación:

Clase de graduación de 2007-2008:	A = 4.0	Clase de graduación de 2009 en adelante:	90-100 equivalent to A
	B = 3.0		80-89 equivalent to B
	C = 2.0		70-79 equivalent to C
	D = 1.0		60-69 equivalent to D
	F = 0		50-59 equivalent to F

15) Se usa la escala de abajo para calcular los cursos de honor/los cursos avanzados:

Clase de graduación de 2007-2008:	A = 5.0	Clase de graduación de 2009 en adelante:	90-100 + 5 points
	B = 4.0		90-99 + 5 points
	C = 3.0		80-89 + 5 points
	D = 1.0		60-69 No extra points
	F = 0		50-59 No extra points

El punto de promedio de calificaciones será determinado por el total de puntos de todas las calificaciones. Se figuran los puntos de calificaciones de acuerdo con los créditos del curso.

LOS REQUISITOS PARA EL ORDEN DE LA CLASE

Para calificarse para estar en el 10% más alto de la clase de graduación, un estudiante tiene que completar grado 12 (9 meses completos) en el distrito de Gadsden.
