Jacquez, Ricardo		Manhole located in T. Urbina's office needs to be sealed. The metal lid that is currently on that manhole is too small and is permitting vapors and putrid odors from the crawl space. We need a larger metal lid and to make sure that the access door is sealed in a manner that prohibits those odors into the room. This manhole poses a safety issue in that someone could fall into the access door and the odors can be a health risk to the person who is occupying the room. Please take care of this as soon as possible.
