If a school does not make AYP for five years, the LEA must create a plan to restructure the school. Generally, under NCLB when a school is in restructuring status, the LEA must take intensive and far-reaching interventions to revamp completely the operation and governance of the school. The plan must focus on accountability, teacher quality, parental involvement and evidence-based instruction. The process must be substantial enough to transform and sustain change while taking into consideration staff development, curriculum, instruction, use of technology, assessment and other factors essential for success.

Option to be implemented during the 2010-2011 school year*:

 Option 1 Reopen as a public charter school.

 Option 2 Replace all/most staff.

 X Option 3 Implement other major restructuring of the school's governance, e.g.

-----Close and re-open as a focus/theme school

-----Reconstitute into smaller autonomous learning communities
