76527					8/5/2011		11		\$0.00
Medium	Work In Progress				8/5/2011 1:55:13 PM				
Castillo, Carlos	Requested by Mrs. Crater Rm. 121 Main Building-There is a total of seven sets of extendas (totaling 28 computers) needed for College Success Program. Seven power cables interlinked and powered only by two outlets. What I do know is that there is a continuous and frequent loss of power entirely to all computers, including the teachers computer that occurs at random and inopportune times in this room. Today, day one of intruction the power went out on both the right and left sides of the classroom. None of the computers were operating, when the circuit breakers were reset, it did not remedy the problem. Electricity wiring needs to be checked as soon as possible for proper classroom intructions to continue.
