Subject:

FW: Attachment A: Technical Skill Areas

The College expects all interns to demonstrate competencies in a number of areas in order to be certified and to graduate with an Associate of Occupational Studies degree. Among the competencies are the following:

Residential wiring
Sheet-metal fabrication
Heat pump operations
Furnace air handling
Commercial display machines
Low-temp machines
Medium-temp machines
Ice machines
Electrical motor controls
Electrical wiring
Brazing/soldering
Compu-Aire system 2100
Commercial walk-ins

More information may be obtained at the following website. Here the viewer can see the lab equipment on which all interns train.

FW: Attachment B: Attendance/Log Sheets

Subject: Attachment B: Attendance/Log Sheets

In order to assure attendance as nearly perfect as possible by the student at the internship site, all employers are asked to track and submit attendance data on all interns. The College requires a minimum number of contact hours and considers attendance a part of the intern's grade. In conjunction with that, employers are asked to show what activities the intern participated in each week. This is to assure that the intern gets the "real world" practice he/she seeks and to assure that the Intern's activities are targeted to the district's needs and fully benefit the Employer. It should be noted that all forms are simple, usually no more than a single page, and are easy to complete and send in.
