Madame President Saenz and Superintendent Yturralde,

I have surveyed the parents of the students for Yucca Heights Elementary asking them for the school, Yucca Heights Elementary, to be a uniformly dressed school.

The results are as follows:

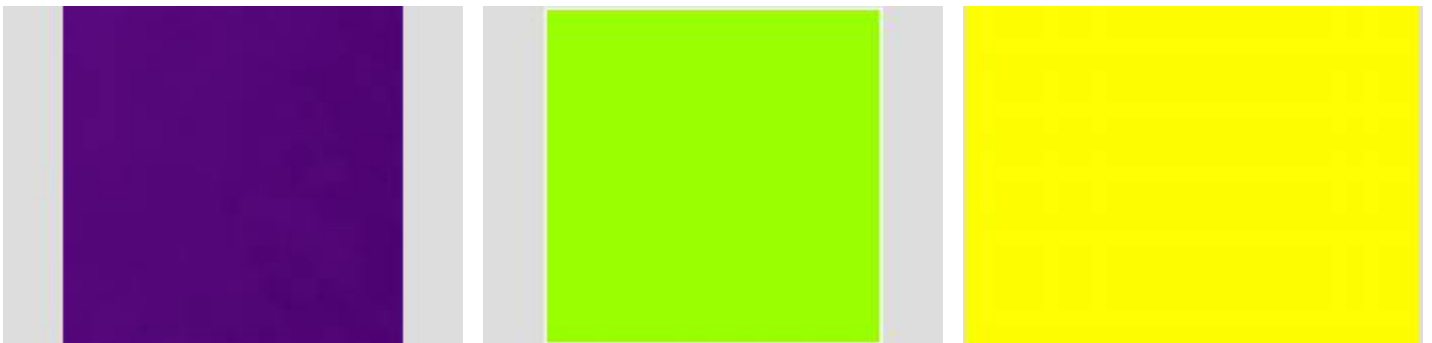

Total school population: 459 without Kinder

Yes votes - 358

No votes -101

75% of our total population is 344. With 459, we more than meet that requirement. In addition to that, we did get more than 75% of that in "yes" votes. Since more than 75% of the parents voted "yes" to uniformly dressed, I would like to officially request your support in accepting Yucca Heights Elementary School as a uniformly dressed school. I also request your support to the implementation of this policy with all our parents at Yucca Heights Elementary.

Below are the school colors we are proposing for Yucca Heights Elementary. The proposed colors are purple, lime green and yellow.

All registered students will comply with GISD's dress code policy as well as the Yucca Heights Elementary School policy, as stated below. Dress Code Policy is established for the safety of all students and school personnel.
