RE: Award Recommendation Letter for Bids Submitted for the Asbestos Abatement at Gadsden High School Old English Building Bid number 16-17-14.

Sun City Analytical, Inc. (SCAI) reviewed the submitted bids for the proposed asbestos abatement project mentioned above. It is SCAI's professional opinion that all the bids are acceptable and in compliance with the bidders documents, where as. Southwest Hazard Control was found to be the low bidder. SCAI has experience working with this firm on past GISD buildings. Their work has been satisfactory and they completed all projects to date on time and within the contract dollars. We recommend that GISD accept the bid offer of twenty-eight thousand five hundred dollars (\$28,500.00) and the unit prices to include the daily rate of \$350.00 per day. SCAI will ensure at the best of our ability, that the contractor selected fulfill his contractually duties as defined in the scope of work in the asbestos abatement design.

Sincerely,  
Sun City Analytical, Inc.

Luis Acuña, PEA, CIAQP, CIEC
