Option 3

As per discussion at the last Board Meeting. If the pool were repurposed at an estimated cost of \$210,984.01 for the design and construction of an outdoor PE facility. That would eliminate the continuing operation of the pool at a deficit to the operational budget of around **\$53,686.27** +/- per year. Also, the use of the facility would increase from the 30 days during the swimming season to a possibility of around 150 days for PE classes using the area. See attached estimate from Architect.
